EDUCATION

University of Wisconsin-Madison

Madison, WI

Bachelor of Science in Computer Science, Minors in Economics, Mathematics, and Statistics

May 2026

Key Coursework: Algorithms, Combinatorics, Cryptography, Software Engineering, Econometrics, Applied Regression Analysis

EXPERIENCE

Software Engineer Intern | TruStage

Madison, WI

Developed cloud automations, LLM security measures, Pipelines, APIs

June 2025 - August 2025

- Worked with cross-functional teams to refactor Azure DevOps YAML pipelines, accelerating feature velocity by 50%.
- Architected a C#/.Net microservice API that gives on-call devs an interface to interact with Azure Service Bus and Blob Storage
- Built a Python tool to detect sensitive data with 99% accuracy, strengthening internal LLM security practices and compliance.
- Drove iterative delivery by working within an Agile Scrum framework, contributing to sprint planning, stand-ups, and retros.

AI Analyst | DataAnnotation

Madison, WI

Alignment strategy, structured criteria, prompt design

June 2025 - Present

- Built and maintained a scalable full-stack testbed (Rust, TS, C++) to evaluate LLM product features, enabling new AI tools.
- Assessed LLM responses for factuality, relevance, and chain-of-thought reasoning quality to support RLHF/fine-tuning pipelines.
- Conducted A/B tests to compare LLM outputs across models, MCPs, and prompt variations, exposing winning configurations.

Software Engineer Intern | Pharos.ai

Chicago, IL

Generating business intelligence with Artificial Intelligence

January 2025 - May 2025

- Automated data structuring using Google Apps Script and Gemini API, cutting model-prep time by 60%.
- Created, implemented, and tested BigQuery SQL schemas and ETL pipelines to automate various services' data reporting.
- Delivered customer-facing KPI chatbot by designing model context protocol (MCP), enhancing dashboard usability.

Software Engineer Intern | Magnet-Schultz of America Inc.

Chicago, IL

Maintained and expanded MSA's 15 server network architecture, cybersecurity, and databases

May 2024 - August 2024

- Hardened security via host isolation, IOC hunts, artifact clean up and tightening email auth (SPF/DKIM/DMARC).
- Provisioned AD/DS + Exchange, mapped GPO drives, adjusted file system access control, managed PDM/SolidWorks licensing.
- WSUS patch baselines, L2/L3 topology diagrams, and Extreme 5520 active-active switch-stack planning.

PROJECTS

TruWeaveTrader

August 2024

Go trading terminal with real-time streaming and intelligent risk management

- Built an algo-trading app with Golang with live WebSocket feeds and caching that cuts quote latency from 150 ms to 25 ms.
- Implemented mean-reversion, momentum, and pairs strategies plus a configurable risk engine (position sizing, stop-loss, etc.).
- Delivered a modular production stack with a REST client, caching, complete with Zap logging and exponential back-off.

PerfectCandidate

August 2024

Simplifying the resume optimization workflow

- Full-stack product using FastAPI/Next.js with PDF extraction, similarity scoring, and inline rewrite suggestions.
- Architected microservices with PostgreSQL, MinIO, Docker Compose with logs, tracing, health checks, and presigned uploads.
- Designed an NLP pipeline leveraging spaCy and PyMuPDF for entity extraction, coverage scoring, and auto bullet rewrites.

LEADERSHIP

Campus Recruiter | TruStage

Madison, WI

Recruiting for 2026 summer internships across software engineering, finance, and legal

August 2025 - Present

- Identified, screened, and recommended top-tier candidates for engineering roles, improving hiring efficiency by 15%

Operations Coordinator | MadCloud

Madison, WI

Founding executive board member for the cloud computing club

August 2025 - Present

- Organized events, managed resources, and established streamlined communication channels as a founding member of MadCloud.

President | Acacia Fraternity

Madison, WI

Led an executive board of 6 to manage over 150 members

December 2022 - December 2024

- Spearheaded the management of \$1.1M in funds, encompassing rent and membership dues, culminating in +20% membership.

SKILLS

Certifications: AWS Certified Cloud Practitioner, Microsoft Power Automate Essentials

Languages/Frameworks: Python, Java, C, TypeScript/JavaScript, CSS, C#, C++, SQL, R, Go, Next.js, React, Node.js

Other: GCP (BigQuery), Azure DevOps, Git, Figma, CI/CD, Agile Scrum, PostgreSQL, Docker, Kubernetes, Postman, dbt, JUnit
