EDUCATION

University of Wisconsin-Madison

Madison, WI

Bachelor of Science in Computer Science, Minors in Economics, Mathematics, and Statistics

May 2026

Key Coursework: Algorithms, Combinatorics, Cryptography, Software Engineering, Econometrics, Applied Regression Analysis

Major GPA: 3.43 / 4.0

EXPERIENCE

Infra/Secure Cloud Intern | TruStage

Madison, WI

Developed cloud automations, LLM security measures, Pipelines, APIs

June 2025 - August 2025

- Worked with cross-functional teams (DevOps + App Dev) to refactor Azure DevOps YAML pipelines, accelerating feature velocity.
- Architected a C#/.Net microservice API that gives on-call devs an interface to interact with Azure Service Bus and Blob Storage
- Increased internal customer experience by automating SharePoint alerts via Power Automate, eliminating manual checks.
- Prototyped a desktop app that recursively scans directories with OCR + Regex to flag sensitive data.
- Drove iterative delivery by working within an Agile Scrum framework, contributing to sprint planning, stand-ups, and retros.

AI Analyst | DataAnnotation

Madison, WI

Alignment strategy, structured criteria, prompt design

June 2025 - August 2025

- Built and maintained a scalable full-stack testbed (Rust, TS, C++) to evaluate LLM product features, enabling new AI tools.
- Assessed LLM responses for factuality, relevance, and chain-of-thought reasoning quality to support RLHF/fine-tuning pipelines.
- Contributed to iterative improvement of model evaluation rubrics, aligning annotation practices with evolving project goals.
- Conducted A/B tests to compare LLM outputs across models, MCPs, and prompt variations, exposing winning configurations.

Software Engineer Intern | Pharos.ai

Chicago, IL

Generating business intelligence with Artificial Intelligence

January 2025 - May 2025

- Automated data structuring using Google Apps Script and Gemini API, cutting model-prep time by 60%.
- Created, implemented, and tested BigQuery SQL schemas and ETL pipelines to automate various services' data reporting.
- Delivered customer-facing KPI chatbot by designing model context protocol (MCP), enhancing dashboard usability.
- Deployed multiple front-end features such as KPI charts using JSON and Google Cloud.

SysOps Intern | Magnet-Schultz of America Inc.

Chicago, IL

Maintained and expanded MSA's 15 server network architecture, cybersecurity, and databases

May 2024 - August 2024

- Facilitated the successful integration of server systems across two locations, expanding the company's operational capacity by 50%.
- Created NIST gap roadmap, adopted for the FY 25 budget, slashing projected audit gaps.
- Enhanced workflow efficiency by assisting the transition from SAP to Epicor ERP systems, optimizing business processes.
- Analyzed patterns in Carbon Black Cloud software to develop effective disaster recovery solutions, improving data protection.

PROJECTS

ShipIt | Personal Project

Madison, WI

Students' one-stop shop for the internship hunt

June 2025 - Present

- Engineered a layout-aware, rule-based résumé parser that pulls information 20-200x faster than NLP models.
- Used React Native front-end + FastAPI/Celery backend for full-stack asynchronous résumé parsing and job scraping.
- Designed a microservices backend with extractors, Redis caching, and distributed Celery workers to scale concurrent uploads.

TruWeaveTrader | Personal Project

Madison, WI

Go trading terminal with real-time streaming and intelligent risk management

July 2025 - Present

- Built an algo-trading app with Golang with live WebSocket feeds and caching that cuts quote latency from 150 ms to 25 ms.
- Implemented mean-reversion, momentum, and pairs strategies plus a configurable risk engine (position sizing, stop-loss, daily limits).
- Delivered a modular production stack with a REST client, caching, complete with Zap logging and exponential back-off.

TECHNICAL TOOLKIT

Languages: Python, Java, C, TypeScript/JavaScript, CSS, C#, C++, SQL, R, Go

Leadership: President @ Acacia Fraternity (\$1.1M managed), Eagle Scout

Certifications: AWS Certified Cloud Practitioner, Microsoft Power Automate Essentials

Other: GCP (BigQuery), Azure DevOps, Git, Figma, CI/CD Pipelines, Agile Scrum

Security: NIST Gap Analysis, Carbon Black, Microsoft Purview

Interests: Poker, High Adventure Camping, Cinematography, Baseball, Basketball, Music Production
